Art Unit: 2833

Claims 1-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Page 5, first paragraph states that the cable 18 and its plug 16 plug through access port 21 of the door 14. Thus only the cable is actually located in the access port. However, in the third paragraph of page 5, the plug 16 is disclosed as interacting with door 14 and thus preventing opening thereof. It is unclear how the plug 16 can interact with the door if the cable has passed through the access port since the plug clearly must pass through the access port before the cable can. Thus the plug would no longer be in the access port. Because of this indefiniteness the claims cannot be further examiner on their merits.
